

Ronald McDonald Committee Report 2018
The Weeders

The Ronald McDonald committee had two very successful workshops this year; one in October and one in April. We made seven arrangements in each workshop and took them to the Ronald McDonald House at St. Christopher's Hospital for Children. The Weeders are the only organization that does this for this Ronald McDonald House and they are so grateful for our efforts. Since we are the only group to do this, I have added a third workshop in January to the schedule for next year. Since it will be after all the holiday decorations have come down, and things look a little dreary, some beautiful flowers will really be appreciated.

Respectfully submitted,

Laura Mitchell
