

VISITING GARDENS

2018

When a member of the Weeders is traveling to some city within the US and wishes to visit gardens in that area, I, as the Weeder Visiting Gardens Chair, endeavor to arrange for this to take place with the Visiting Gardens Zone Rep in that particular area. Sometimes it is possible, as it was when Sonya Driscoll visiting Jupiter Island this winter, had a lovely day touring through its horticultural splendors. Sadly, At other times it is not possible, as there is no GCA club in an area. This has been the case when our members toured in the Beverly Hills and San Diego areas as well as Martha's Vineyard. I look forward to arranging for one of you to see unique gardens in another sector of our country.
