

Christmas Sale/the Weeders 2017

Each year we cobble together homemade foods, offer services such as computer help and augment the sale with treasures for the gardener, jewelry from several creative people and of course the glorious magnolia from Lloyd's tree. The resulting sales go toward Weeder Community and Conservation outreach. This year at St. Christopher's in Gladwyene, tables were set up before the meeting so pricing and display could happen quickly as members brought in their goodies. This is always a mad dash, but thanks to Karen Doyle (Chair of the Day) we hopefully coordinated the sale before the business meeting and Polly's table top arrangement session. The Sale follows the arranging. There were additional labels to help everyone see quickly what was offered.

Biddie Edwards and Wendy Calhoun handled the money at the checkout. This year we made \$1,349... This is in line with previous years.

For next year, I will buy more labels and 3x5 cards for display and identification. We will annotate the pricing guideline. It is almost a tradition to have this Sale, but we think we will refine it. We do not want to "bump" into other fundraising. The Weeders might conjure.

Stay tuned!
